

STEWARDSHIP – A LIFETIME EXPERIENCE

By Dr. Ed Lampley, Sr.
Oakland Downs Memorial UMC

Stewardship is a lifetime experience. Stewardship of relationships requires research and dedication to improving our relationships. Stewardship on our job is finding ways to be more efficient on our jobs as well as improving relationships with our coworkers. Stewardship in the home or business is maintaining good relations with members of the family and also efficient stewardship of our assets. Stewardship in our spiritual life involves establishing a lasting relationship with God and managing assets of the church in such a way as to enhance the things God would have us do; provide scholarships for our children, house the homeless; feed the hungry; provide clothing for those in need; provide for upkeep of God's House for today and generations to come; and do what Jesus did while spending a short time on this earth.

The California-Nevada United Methodist Foundation . . . offers the services of the Foundation for any charitable legacy to any ministry of Downs Memorial Church. If you wish to create a charitable legacy to some ministry of the church you can say in your will or trust:

“I give (rest and residue, a percentage, a dollar amount, or specific property) to the California-Nevada United Methodist Foundation, 1276 Halyard Drive, West Sacramento, CA 95691, for the benefit of the (name of ministry: the scholarship committee, music department, lay speakers, Fishes and Loaves, or any other department) of Downs Memorial United Methodist Church.”

The Foundation will administrate the funds in the manner you desire.

Be a steward for the programs of God. Grants, donations and other methods of carrying out God's programs are also welcome.
